DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Russell et al. US 6,103,540.

Russell et al. discloses a nanosilicon light-emitting element and a method of making including forming an SiO film and is heat treated and subjected to hydrofluoric acid, which may be repeated, in order to form nanosilicon of 3.0nm or less, and which may emit light (see figs. 1,4 and 5 and related text).
